

## The Intelligence Layer Built for Spire.

Nexus connects to your Spire ERP and gives your entire business a brain. Ask plain-English questions of your data, automate your workflows, and get real-time visibility across every department — from any device, anywhere. No syncs, no exports required.

Eliminate manual work. Nexus automates workflows, approvals, alerts, replenishment, and collections — triggered by your live business data.

### A Automation

Ask Nexus anything in plain English. Get instant answers, live dashboards, and role-based KPIs across every connected system. Always current.

### I Intelligence

Every report your team needs, built once and available to everyone. Scheduled, on-demand, mobile-ready. Fully exportable to Excel.

### Why Businesses Choose Nexus

#### + Real-Time Visibility

Live dashboards across sales, finance, inventory, and operations. No waiting for reports.

#### + Automation That Acts

Rules-based workflows trigger actions automatically — collections, reorders, approvals.

#### + AI On Demand

Ask Nexus anything. Get answers from your live Spire data in plain English.

#### + One Platform

Replace a stack of disconnected tools with a single layer that ties everything together.

#### + No Disruption

Nexus sits on top of Spire. Nothing gets replaced. Everything gets smarter.
